

Valladolid 29-May-2012,

Top Machine celebrates its 3 years anniversary

Born in May 2009 Top Machine is happy to celebrate its 3 years of existence

The last 3 years it has been a very exciting time running the company, achieving several important milestones for the company to become a big global player in our industry:

- From the three former partners to 19 people working today
- From a small number of transactions in 2009 to more than 100 operations successfully closed in 2011
- From a “garage” office to our current office in Valladolid Paseo Zorrilla main street, it has space enough for 30 employees and it is conveniently located near hotels and restaurants for customers, vendors and partners visiting us
- From no warehouse to 3 fully operational warehouses in Valladolid, Stuttgart and Rome

Because of all this we are happy to celebrate our 3 years and we want to thank customers, vendors, partners and employees for making this possible,

THANK YOU ALL!!!
